GARAGE DOORS

Make a Statement.

Model 272 in Black with Short Plain Left Vertical Windows

AMBIENT SERIES

These stylish residential garage doors offer the beauty of a wood-like design with the strength and low maintenance of steel. Available in 18", 21", and 24" sections, the triple-layer construction features polyurethane insulation between two steel skins providing durability, noise reduction, and thermal efficiency. A choice of 9 standard colors and 11 wood tones lets you create the perfect door for your home.

Crafted for Beauty, Engineered for Performance

CONSTRUCTION

Two deep-drawn, tension-leveled, galvanized steel skins are polyester painted. The skins encapsulate a high density injected polyurethane core which is bonded using a polyurethane adhesive. Section joints sealed with a polypropylene bulb thermal break anchored within the polyurethane core. This construction method provides superb thermal performance, durability, strength, sound deadening qualities, and dent resistance for an all-around superior product.

- A. Finished Painted Coat
- B. Primer Coat
- C. Galvanized Layer
- D. Steel

PANEL DESIGNS

Safe-Way warrants the sections of Ambient models against rust through due to the paint finish cracking, checking, or peeling (losing adhesion) for (a) in single family residential installations for as long as the original purchaser owns the home; or (b) in all other residential installations (including commonly owned facilities by condominium associations or similar organizations) for a period often (10) years from the date of purchase by the original purchaser. If during the term of the warranty, the sections are determined to be defective, as verified upon inspection by person authorized by Safe-Way, Safe-Way will repair or replace any defective section when installed by qualified personnel in accordance with instructions from Safe-Way.
